FLOATING (lakes or rivers).

We enjoy a beautiful and peaceful day of fishing near Puerto Natales. These lakes, lagoons and rivers located no more than an hour and a half away from the city or the park. All are very productive places for sport fishing.

Sofia Lagoon, Toro and Porteño lakes are source of various species of fish such as Fario Trout, Coho Salmon and Atlantic Salmon. The size of the fishes that hope to be gained varies between 18 and 35 inches, even at 19 pounds. It all depends on external factors and the tenacity of our anglers.

We can float on three boat types, Zodiac, wooden Mackenzie and cataraft, achieving access to the best fishing spots.

It is advisable start early in the morning or late for the sunset, as the fish are much more active during those times. This gives chances to catch trout or salmon with good sizes.

The fishing schedule depends on each angler preference. A full day can be combining a half day wading and a half day float, thus enjoying different adventures in one day.

We step up our security with safety briefing offered by our guide and then enjoy the float and fishing.

In time to be arranged, we return to Puerto Natales or hotel / lodge where fishermen are staying.
